Not work in Firefox

Posted by Filho - 2008/06/01 01:20

Helo, is a great product, but is not working in firefox 2.0, internet explorer it's ok.

Can help me ?

Tank you !

My site is: http://www.bytesbr.com/index.php/acessar-messenger

Hi!

I see that the component did not show the contact list for Firefox but it's ok with IE.

Did you change something from the code of the component? Maybe the CSS or any Javascript?
