
No Item Was Saved

Posted by maxmmize - 2008/12/12 13:36

Hi,

****I did successfully get other RSS feeds to work!** ThankS!**

Gracias por hacer que el sitio.

I followed all of the steps but I am unable to get news from a New York Times RSS feed.

I do have the correct MySQL requirements and followed the help. I searched the forums but couldn't find my solution. Ayudame por favor! :-)

Eric

Edit

I did successfully get other RSS feeds to work!

The installation of the component was easy.

The configuration for downloading,... the RSS news don't work.

I see no errors just "no item was saved" that's it:blink: :blink:

I try and play with the rules but nothing happens.

And I don't find the answer in this forum.

I have the same problem, someone has found a solution?

I searched the Internet but have not found anything.

Thanks!
