## Imported rss articles transformed ai articles joom

Posted by tudoroiuj - 2009/06/05 10:16

---

Hi,

I tried the extension and is really really great.

What i want to ask you is if the articles can be transformed in native articles content joomla...what i mean is if i publish an article to publish it alsı in joomla articles in a section and a category pre established.. And then enter there , define the new section and the new category , put keywords and so on...

It is this possible?

Thank you,  
Adrian

i found out,  
sorry it was simple and i apologize for my stupid question

Great JOB with this extension!!!
